- Piping and system drawings
- Outfitting & Accommodation
- Machinery and Electrical drawings and calculations
- Cargo handling system drawings
- Navigational and communication equipment layout
- Naval architectural computations

Site Supervision & Reporting

Focus on:

- Good ship building practices
- Proper installation of Equipments
- Proper surface preparation and coatings
- Witness and record tests and trials.
- Scheduling and deviations
- Liaison with all parties
- Crew familiarization
- Project reporting

Sea Trial and Commissioning

- Participate in all shipboard equipment testing and quay trials.
- Verify the proper functioning and testing of all machineries and fire fighting equipment.
- Participate in scheduled operational trials in dock and at sea to ensure that the operation is in compliance with the specification.

Guarantee Claim Handling

An add-on service:

- A dedicated resource allocated to categorize, evaluate, correspond with both, shipyard and owner, track, and close out the warranty claim.
- The focus being to expedite the claim thus ensuring minimum vessel downtime and also reduce possible off-hire and commercial loss to the client.
