

Clean hydraulic Oil

Filters and cleans oil for better quality than new oil free of particles and water. it prolongs oil life 10-15 times

Purifier maintain service level of oil

- Cleaner removes particles down to 1 microns
- Evaporates all the water, including emulsified water in oil down to 0.01%
- Extends the oil's quality time
- Clean oil reduces casualty rate
- Saves the environment

Your benefits

- Big savings
- At an oil consumption of 5,000 liters, you save up to about 8 to 10 000 euro
- Easy to use
- Reduces maintenance
