

Ship Plan Digitization

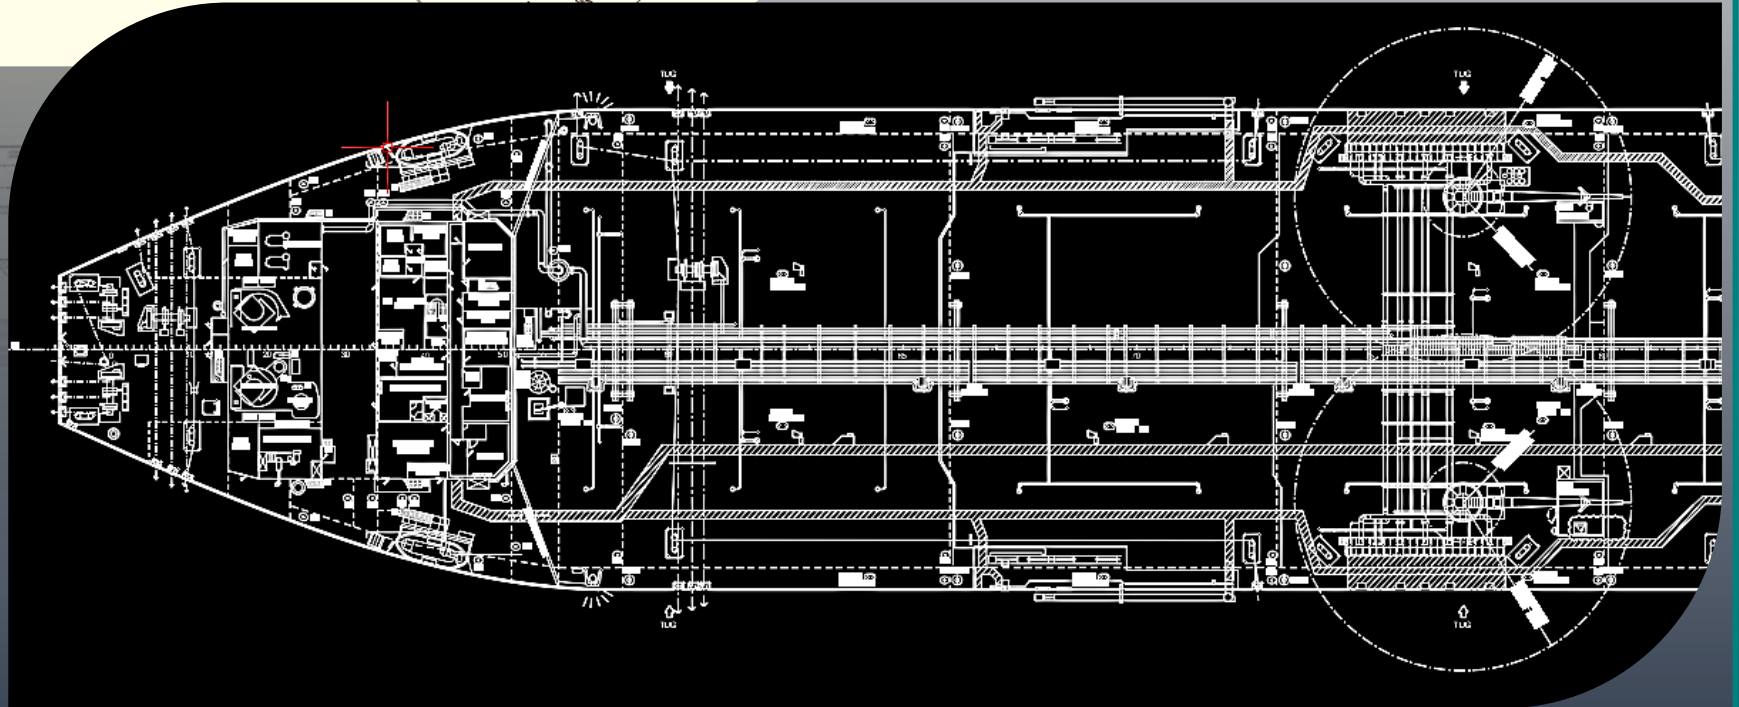

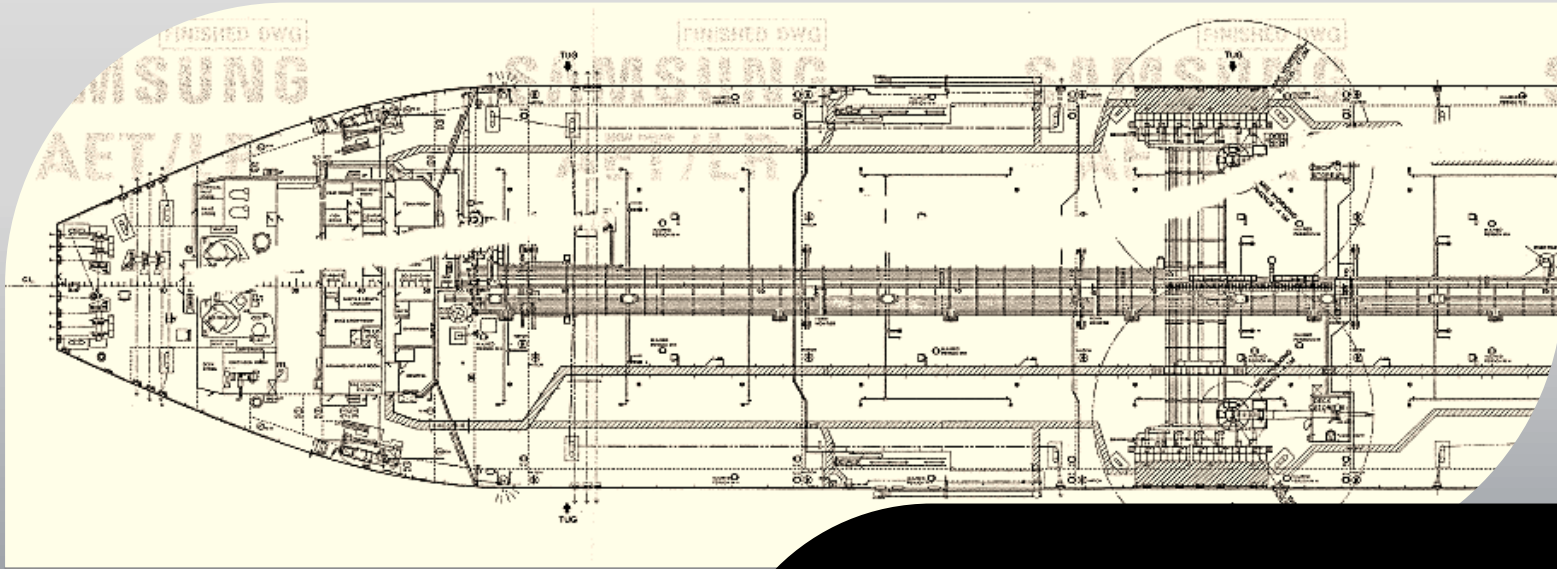

Zebec Marine undertake conversion of Ship's paper drawings into AutoCAD and PDF format.

Advantages:

- Safer storage medium and far less space required both on board and at office compared to Paper Drawings
- Facilitates discussions between office and vessel, ship yards, class, marine administration
- Multiple storage formats - CD / DVD/ Server / PC
- Higher Resolutions compared to Blue prints/scanned drawings
- Instant retrieval 24/7 from ship, office or anywhere
- Drawing can be layered to clients needs, Extrude 3D models from 2D AutoCAD drawings
- Drawings can be modified easily at later date in case of modifications or conversions
- Allows for a paperless environment in keeping with Green requirements
